Some important things to know about [Kingdom Internal Medicine](#):

Our staff and providers are dedicated to our patients. Our goal is to provide you with high quality, convenient care that focuses on your personal health and wellness goals.

Same Day Appointments: Each provider has a reserved number of appointments, dedicated to same day requests, which open at the start of each day. If you have a medical problem you believe requires same day attention, then we encourage you to call as early as possible as the appointments are first-come, first-served and fill quickly.

Cancellation of Appointments: We ask that you contact the office at least 24 hours in advance if you need to cancel your appointment. When you fail to cancel a visit, you prevent that time being given to another patient who needs care. We understand that circumstances may arise in which you are unable to give at least a 24-hour notice, but please contact the office as soon as you can.

No Show Policy: When you have a scheduled appointment that you do not attend, this is considered a “no-show”. As a new patient, it is important to attend your New Patient Appointment. If you no-show 2 New Patient Appointments, then we will no longer schedule you an appointment to establish care with us, and you will need to seek care elsewhere. Once established with the practice, 3 failures to attend a scheduled visit, without prior notification, will result in dismissal from the practice. A copy of our No-Show Policy will be provided to you.

Prescription Refills: We ask that you contact the office regarding medication refills at least **72 hours in advance** to allow sufficient time for your provider to receive and respond to your request before you run out of your medication. Typically, for maintenance medication your provider will provide refills to last until your next scheduled appointment. If you are out of refills, this may indicate that you are due for an appointment with your provider.

Telephone Calls: Should you have a question, or feel as though you need to speak with your provider, you will first be given to our triage nurse. Once the nurse has had the chance to consult with a provider, your call will be returned. Many issues cannot be addressed over the phone, so you may be asked to schedule an office visit with a provider to give you the appropriate care.

We thank you for allowing us to participate in your healthcare and hope that the above information will assist you in obtaining prompt and convenient medical care.
